JAMO DMR 70 DVD RECEIVER

Let us entertain you

No need to look further

Wraped in exclusive Scandinavian design Jamo has created an easy to use DVD receiver with very exclusive features - just relax and let us entertain you.

The Jamo DMR 70 DVD receiver plays the majority of current file formats and has the necessary enhancements and advanced features.

HDMI - DVD upscaling 720p/1080i

Product features:

- HDMI output - a digital connection that can carry digital HD video as well as digital multichannel audio.
- Personal audio input for e.g. iPod/MP3 players.
- DVD Video Upscaling to 720p, 1080i - increases the resolution of SD (Standard Definition) video signals that DVD uses to HD (High Definition) via the HDMI cable
- DivX Ultra capability - combining DivX playback with great features like integrated subtitles, multiple audio languages, multiple tracks and menus into one convenient file format.
- Plays DivX, DivX Ultra, Xvid/MPEG-4, WMA, MP3, JPEG files from disc or directly from USB
- Build to match the Jamo speakers A 102 & A 400 and the Jamo Subwoofer SUB 200 (200W) and A 400 SUB
- Total sound power 525 W
